

# Tools and Information for: **Healthy Country**

## Healthy Country, Healthy Communities

**(due 2007)**

This free booklet further develops the ideas of healthy country to include the relationship between healthy environments and healthy communities. Drawing on recent research on the links between human well-being, economic and social indicators and environmental factors, *Healthy Country, Healthy Communities* develops a framework that makes these insights useful to land managers and planners.

## Healthy Rangelands: Principles for Sustainable Systems, Focus on Australia's Burdekin Rangelands

**Various Authors (2005)**

At more than 240 pages, this well-illustrated book brings together an extensive array of information on land use, management and biophysical systems in this Queensland catchment. An unparalleled resource for those interested in healthy rangelands. Also contact: Qld DPIF Book Stores and the Qld DPIF Website: [www2.dpi.qld.gov.au/shop/](http://www2.dpi.qld.gov.au/shop/)

## What is Healthy Country?

**Various Authors (2001)**

This is a free booklet on savanna health for land managers and users. It describes how the TS-CRC developed a set of attributes and indicators to define landscape health. Landscape health is described for different scales ranging from paddock to whole of savannas, and from the perspectives of different stakeholder sectors including grazing, indigenous and conservation. 21 pages, full colour.

## Defining and measuring the health of savanna landscapes (2000)

Defining and measuring the health of savanna landscapes is a free technical discussion paper that describes key attributes and measurable indicators for managing for landscape health. Defined for different scales ranging from paddock to whole of savannas, and from the perspective of different stakeholder sectors including grazing, indigenous and conservation. 24 pages.

## Proceedings of the Northern Grassy Landscapes Conference

**Various Authors (2001)**

Held in Katherine from August 29-31, 2000. Available on CD and hardcopy. Theme: Striking a balance between production and conservation in the grassy landscapes of northern Australia. Over 50 papers and poster presentations. 153 pages.
